I am attaching a hint (source) in FamilySearch. How do I attach this hint to other people in the record? Answer: CHANGE THE FOCUS PERSON

In this example the program let the hint be attached to Thomas (groom) and his parents only.

To attach this source to the other side of the family, first click on Change person, then click on Thomas to make him the focus person. It gives you the ability to add his bride Katie as his wife and attach the source to her record.

Then click on Katie (bride) to make her the focus person, and you will be able to attach the source to Katie's parents.

You can also put in the PIN by words "Go to"
